Something true about President Ar thur: "A great many persons will break through party lines at the coming election, and throw their ballots for the safest man. This is peculiarly the characteris tic of Mr. Arthur. Since 1880 he has been known as a dignified and careful officer. The swift mutations of America polities is perfectly wonderful. Those who were Blaine's bittered enemies four year⁹ ago, are now his warmest friends. The Milwaukee Sentinel makes some good suggestions for the ceming republican state convention. One of the very important points to be considered is made by the Sentinel as follows:

'the delegates to a convention are representatives. They are acting for others and not merely for themselves. Their constituents are a right to know what they do. Therefore there should be no secret balloting in a political convention of delegates. A secret ballot in a primary meeting is proper. There every mary meeting is proper. There every man is acting for himself only. But for the same reason that we require members of the legislature to voto size scenario, the election of a United States, senator, we should require delegates in a nominating convention to vote in the same manner. The secret ballot is often used to conceal frauds, bargains and treachery. The people should trust no man to represent them in a convention who is not willing to vote openly and to have his vote recorded for the information of his

This is a good point, and the state convention should carefully consider the matter, and then adopt the timely suggestion. There is nothing like a courage that will lead every man to show his hand; that will prompt overy man, chosen to represent the people, to let his vote stand in the broad sunlight of public opinion. A man who is afraid to let his constituents know how he votes in a convention, is not the man entitled to public confidence when placed in a representative capacity. Sabin on Virginia Republicanism. WASHINGTON CITY, April 23.—Senator Sabin, chairman of the national Republican committee, has written a letter to Mr. J. F. Dozondorf, of Virginia, explaining that a certain hektographic circular addressed to state committees, which was sent to Mi. Dezondorf a few days ago, was so sont by the mistake of a clerk, and was not intended as a recognition of the Dezendorf convention as the regular Republican organization of Vir-

mittee can only recognize one convention of Virginia as responsive to its call, viz.; the convention to be held at Richmond on the 23d inst."

NORFOLK, Va., April 23.—Ex-Congress-man Dezendorf, in an interview with a reporter, says he thinks the communication purporting to have come from Senator Sabin, to the effect that the recent circular letter was sont to him by mistake, was concocted by conditionists, and is intended as a counter irritant to serve the condition convention. He attaches no significance to the communi-cation, and says he has received no letter from Senator Sabin excepting the one asking him as chairman of the Virginia Republican state committee to call a convention to send delegates to the Chicago convention.

Ohio Republicans.

CLEVELAND, April 23.—The Republican state convention has drawn a vast crowd to this city. Matters are in a rather clastic condition just yet, but a few movements of interest have developed, among which are the facts that the Cincinnati delegates seem to be principally for Sherman, but the convention is conceded to Blaine, although the vointon is conceded to Biline, atthough the delegates will probably go to Chicago uninstructed. The convontion will meet in the Tabernele and will consist of 630 delegates. Col. M. L. Dempsoy, of this city, is leading candidate for socretary of state, and ox-State Treasurer Joseph Turney is being urged for presidential elector.

The colored delerates from Columbus are urging the claim of ex-Senato Clerk Walter Thomas, the colored statesman from Dela ware Objector one of the delegates-at-large His Cleveland friends say he will get the votes of twenty-three of the twenty-flye Cleveland delegates. There will be a hard fight to give a colored man a representation on the delegation-at-large.

Arthur Danies a Stors Washington City, April 23.—A story has been circulated to the effect that President Arthur has written a letter to his friends in

New York decling to allow his name to go before the New York Republican convention. The president, on being questioned concorning the rumor, said that there was no truth in it whatever; that he had not written such a letter and did not intend to.

More Blaine Delegates.

ANNAPOLIS, Md., April 23.—At the Redelegates to the district convention and five to the state convention were elected. All favor Blaine for president.

Notes.

Mississippi Republicans in convention at Jackson selected as delegates to Chicago, at large, B. K. Bruce, James Hill, J. M. Byrum, and R. F. Bock, all for Arthur. Mr. Bruce addressed the convention, and in a consorva-tive speech advised against instructing the delegates. The district delegates stund six for Arthur and one for Logan. Three are white and four are colored, John R. Lynch being one of the latter.

The Louisiann election, it is believed, has resulted in a victory for the entire regular Democratic ticket. There were three extra municipal tickets in New Orleans, all Demoeratic of different factions. Much excitament was occasioned by the exclusion of the inspectors for the latter tickets from the polls, but no diturbance occurred.

Eight Republican delegates to Chicago were elected in Massachusetts, their prefernces being for Edmunds and Lincoln.

O'Donovan Says the British Earthquake Was Not Unexpected!

He Remarks Also That It Was & Complete Success, and Promises leged" Interview.

CHICAGO, April 23.—The Tribune has a special from New York, giving the following alleged interview with O'Donovan-Rossa: O'Donovan-Rossa was in a perfectly con-tented frame of mind. Things appeared to be moving on just to his liking, and his face wore a satisfied expression. Mr. Rossa is supposed to direct the skirmishing move-ment from this side of the sea, and his ability in collecting subscriptions, if nothing more, from enthusiastic patriots who long to participate in the destruction of English cities and murder of Brtish subjects is well known. Mr. Rossa was in one of his down-town resorts holding a little joilifica-tion meeting with a few dynamita apostles over the news from London that the eastern portion of England had exparienced a grand shaking up, and that much damage to prop-erty, and probably loss of life, had resulted

"You must not ask me auything about this

"You must not ask me anything about this affair," he said, in a whisper, when questioned. "It has not been altogether unexpected, I assure you."
"The old man is going to divulge some of our important secrets," remarked one of Rossa's lieutonants, "and we must put a stop to it. I say, young fellow," turning to the journalist who had been talking with Rossa, "what do you want here, anyway?"
The nature of the visit was explained—that it was to ascortain whether Rossa had that it was to ascertain whother Rossa had

been advised in regard to the alleged earth-quake in England, and what the real object was in shaking down the buildings. O'Don-ovan, who really appeared anxious to tall all he knew about the affair, but who for reasons of policy was deterred from making a clean breast of the awful events in the counties of Essex and Suffolk, in England, took the correspondent aside and explained that he and his friends had just been secretly discussing the matter, and that they were preparing plans for further action.

"I out only say this," continued Mr. Rossa

"that what the cable dispatches call up earthquake in England was no earthquake at all, No, my dear boy, it was no earthquake at

"And he has letters to prove it," remarked Mr. Joyce.
"Yes, I have letters to substantiate what I

tell you. Why, only Sunday I received a large mail through one of our number who is supported at the expense of the skir-mishing fund to carry our mails across the Atlantic. Here are several letters from this very section where this agitation occurred. One of the writers late, April 10—at Colchester, in Esser county, instructs me that on or about the 23d of April there may be some good result from our work over here. Now, what does that mean! Mean! Why, it means just what the cable speaks of to-day. It is this alleged carthquake. But I must not tell you day more for you will must not tell you any more for you will him the means high season so. I rail you?

I must not tell you any more for you will put it in the pager just as sure as I tell you."
"Have you had any advices to night from your secret agents in England?"
"Yes. I had a cable, but it is at my office. It was a complete success. Churches were destroyed, dwellings thrown down, and some injury done to people. It was the biggest thing we ever attempted. It has been planned for a long time, my boy. But don't ask me how, for it would not do to have our purposes known. There never was a neater plot schomed out in human brains. But this is purposes anown areas are plot schomed out in human brains. But this is only the beginning. Why, before next week comes around England will be dancing a jig, comes around England will be dancing a 11g, with nothing to rest on. Chaos will be come again. There isn't a spot in England that will escape this retributive justice. They have arrested our men for the dynamite schemes in London and elsewhere, but they are not markers alongside this latest effort. Do you know what has been done with all the dynamits that has been shipped from here and from France? No? Well, it has been used to blow up British tyrants. England is honeycombed. The work basbeen begun in eastern counties, and will sweep over England like a hurricane. Some of it must have been touched off near London, for they got a slight shock there, I hear. We are through putno dynamito in Pallway stations an

bridges. Underground deposits are the thing. Our experiments here have demonstrated this, and England must look out for hereal." "Then you know this shock was to occur?"
"Know it? Why, have I not been posted along! I could have told you six months ago, bud it been policy; but you know work on the quiet. Talk of earthquakes! What fools those English people must be?

And O'Donovan gave a very 'quiet and significant wink with his left eye, pulled his slouch hat down upon his forehead, stroked his beard, and joined his companions in the other part of the room.

banker, Mr. Bateman, the subsequent withdrawal and Gen. Swaim's explanation. The secretary says that if any distinction could be made in the quality of honor required of army officers, that of the judge advocate general should, above all others, be above suspicion. The secretary continues:

It is a matter of deep regret to me, therefore, that when the judge advocate general was given an opportunity to comment upon the charges in question, he, in respect to the first charge, either was not able or did not see fit to make an explicit donial of its essential part, or to give in detail such facts and circumstances as would show the falsity of the charge. Instead of doing so, he has continued himself with a statement which continue in thing to which Mr. Bateman's did allows a supplement. So in respect to the second charge—assisting to negotiate army pay vouchers with Bateman & Co., which Gen. Swaim keep to be fraudulent and triplicates of outstanding accounts. Gen. Swaim's response lails to notice that the charge, as made by Mr. Bateman, refers not merely to a negotiation to pay accounts alleged to have been known to Gen. Swaim as fraudulent, and to that element of the charge no allusion is made in his response. It is not overlooked that the final clause of the response, asking for its publication, refers to the accusations as false, but his specific answers to them are evidently intended to be found in what has gone before.

Scientary Lincoln then says that if these charges are untrue Gen. Swaim should be vindicated officially, and as the general has

Business in Congress.

WASHINGTON CITY, April 23.—In the senate, a potition was presented from citizens of California, praying for an increase of the duty on raisins. A resolution was adopted that the secretary of war inquire and report the value of all grants to the state of Michigan for the Portage Lake ship cruel, and on what could Lake ship canal, and on what condi-tion, that work can be purchased by the government for a free water-way. Bills were passed authorizing a bridge over the Cumberland river at Nashville, granting a pension to the widow of Rear Admiral Me-Dougall, and to ratify agreements with the Sioux Indians for the right of way for the Dakota Central and the Chicago, Milwaukee & St. Paul roads.

In the house, Weller objected to the consideration of the bill to authorize the speratary of the treasury to invest lawful money de-posited by national banks to retire their circulating notes. An order was made that evoning sessions be held for general debate on the tariff bill. The pension appropriation bill was passed, the amendment by Rosecranz to transfer the duties of pon-sion agents to the pay department of the army being lost. In committee of the whole, speeches were made by Welborn, McKinley and Horbert on the tariff question

Of Great Value to Vocalists. Unionville, Westchester Co., N. Y. August 20, 1882. I had carelessly exposed myself and sustained a very severe and tight cold on my chest and in my throat. I procured Allcock's Porous Plasters and applied one on the chest, well up on the throat, and relief came readily; the soreness of my chest was removed, and my vocal organs were kept clear the entire past winter, enabling me to fulfill public engagements in different parts of this country.

No more may be said than that All-cock's Porous Plasters, it applied by afflicted vocalists, will greatly assist their vocal rendition in public.

of America, says that while a passenger from New York on board a ship geing around Cape Horn, in the early days of emigration to Cal-ifornia, he learned that one of the officers of the resset had cured himself, during the veyage, of an obstinate discuse by the use of

Aver's Sarsaparilla. Since then fir. LELAND has recommended ATER'S SARSAPARILLA in many similar cases, and he has never yet heard of its fail-

ure to effect a radical cure. Some years ago one of Mr. Loland's farm some sens ago one of the history state haborers bruised his leg. Owing to the bad state of his blood, an ugly scrofulous swelling or lump appeared on the injured limb. Horrible itching of the skin, with burning and during pains through the lump, made life almost intelerable. The leg became eneralmost intolerance. The log decease clos-mously enlarged, and running ulcers formed, discharging great quantities i extremely efforsive matter. No treatment was of any avail until the man, by Mr. LULLAND'S direc-tion, was supplied with AVER'S SAISAPA-RILLA, which altayed the pain and irritation healed the sores, removed the swelling, and completely restored the limb to use. Mr. LELAND has personally used

Ayer's Sarsaparilla for Rheumatism, with entire success; and, after careful observation, doclares that, in his belief, there is no medicine in the world equal to it for the care of Liver Disorders, and the belief of the care of Liver Disorders.

Gout, the effects of high living, Salt Mheum, Sores, Eruptions, and all the various forms of blood diseases. We have Mr. LELAND'S permission to invite all who may desire further evidence in regard to the extraordinary cutative powers of

AVER'S SARSAPARILLA to see him person ally either at his mammoth Ocean Hetel, Long Branch, or at the popular Leland Hotel, Broadway, 27th and 28th Streets, New York.

Chronic Diseases. Special Study for Years.

Dr. F. B. BREWER Has made Chronic Diseases of the

Throat, Lungs, Heart, Stomach. Liver, Kidneys, Nerves and Blood. A special treatment for years. He is not a

boastful, ignorant pretender, but an educated physician, seeking to do good, by devoting his alent and energies to the treatment of a class of malagies that have been with him a long and patient study. To be able to treat successfully obrodic diseases it requires that a physician should be a sound, thorough scholar in the art of science and medicine generally. He should give his entire time to their study, be therough n his investigations and have a long and varied experience. Dr. Erewer claims to work no wonders or to do any more than any well educated physician can do, who devotes his whole time to the study and treatment of chronic diseases exclusively, and has had his many years of experience. For years Dr. Brower has visited the the places he now visits, and has obtained his reputation by being honest in his dealings candid in opinions and reasonable in his charges. Those who are afflicted are invited to call, investigate and decide for themselves. It will cost nothing to do so. Address all latters TO F. B. BREWER, M. D. Lock Box 228, Evanston, 111.

-The saloon-keepers are as much surprised as anyone else over the vote of the mayor on the license question. It is said they fully expected to pay \$150, and it has come direct from one of them that they would have been satisfied with that license. The mayor had an opportunity to attach himself very warmly to the better element in this city by simply doing his duty. He could York importers, a number of very elegant have put himself on record as a fearless, high-minded, and faithful official, and would have had the better class of citizens to applaud him; but he did the other thing, and now receives the bitter censure of the community. He has paid dearly for his lack of firmness to honor

the will of the better element in Janes--The next knotty question for our mayor to settle will be, how many lisenses he is willing to grant this year? There are now fitty-five saloons in this city, and we understand all will apply for a renewal of their license. On this point, to use the language of the "poker player" his honor will be "called" a tie vote, as the law and order members of the council are opposed to granting license to known riolators of the law. And they believe in the language used by the mayor in his inaugural message: "My opinion on this above zero. Partly cloudy with north iail. important question is that it should be "handled with good judgement and great year ago the register was 34 and 49 decare. The very fact that license is nocessary, implies that it is a police regu-'lation, to a cortain extent dangerous "to the welfare of the people, and should 'only be trusted in the hands of mon 'who respect the laws; and appreciate 'the danger of the traffic. Gentlemen. 'I would recommend a rigid enforcement of the laws and would be more than

And Votes with the Low License Aldermen against the New Ordinance.

Miscellaneous Doings at the First Regular Council Meeting.

The first regular meeting of the common council was held in the council chamber last evening, His Honor, Mayor Richardson, presiding over a full board of aldermen.

The journal of the last meeting was read and approved.

The bonds of Dr. O. P. Robinson, 88 health officer, and of Ed. Connell and Jumes Blair, as assessors, were presented and referred to the judiciary committee. who subsequently reported them back as correct, with sureties good. Approved and filed.

The city clerk gave notice that he had appointed Mr. J. A. Blount as deputy city clerk for the ensuing year, and requested the council to approve of the same. Approved.

A petition was read from property own. elated over his sudden conversion to their ers, asking for the opening of Dickson side—and only pray that he will hold the street, in the third ward. Referred to lighway, street and bridge committee. Mr. J. P. Baker was granted permission

to occupy a portion of High street with building material, while building his new honse. A petition, signed by a majority of

property owners on Dodge street, was presented, asking the council to discontinue a certain portion of that street lying east of River street. On motion of Ald. Shearer, the petition was received and ordered published as required by the city charter.

A communication was read from Street Commissioner John O'Brien, Jr., embrao ing his recommendation for repairing certain streets etc. The communication alit on bearlo has been saw

The clerk read a few bills-referred. Ald. Daly moved that when the council adjourned it be until April 30th. at 7:30 o'clock. Adopted.

Ald, Palmer introduced the following order, which was adopted;

Ordered, by the mayor and common council of the city of Janesville. That the street commissioner he and he is hereby directed to cause the streets, alleys, culverts and gutters to be thoroughly cleaned, and to repair the several streets of the city so that water will run from road-bed to gutter; also to make the needed repairs to bridges and culverts.

Rooney and Smith-5. THE MAYOR CALLED. [Up to this time not a word had been spoken for or against the ordinance, and the vote being a tie, Mayor Richardson saw this meant for him to show his hand on the license question; he took the floor, and with considerable embarrassment, said that it seemed strange that so important a measure should come before the council without being discussed. He said that as the license was now fixed at \$75, this, with the wholesale license at \$25, and the government license of \$25, would now make a license of \$125, he therefore thought that to increase the license of the city to \$150, would make the licenso a little too high. voted no, and declared the amendment At the suggestion of City Attorney Smith, an order was adopted transferring all license money to the general fund.

Ald. Daly moved that the council grant license for the coming year. Aves-Ald, Daly, Lednartz, McLean Potter and Smith-5.

Noes-Ald, Burnham, Kenyon, Palmer, Rooney, and Shearer-5.

This vote again "called" the mayor, and with a "bland smile" he voted "aye" and declared the motion adopted. On motion of Ald. Daly the regular

meeting night of the council was changed from Tuesday to Monday. On motion of Ald. Lennartz, the city

The Mayor and License.

Mayor Richardson is receiving general condemnation for his action in voting to keep the saloon license at \$75. Of course he is under the saloon influence and mus bow to its beliests. He dare not, as : democratic mayor, vote to increase the license, because it is against democratic principles to put a high tax on liquors. But Mayor Richardson has been facing Eath wave on the license question, and has therefore proved false to some of his high license democratic friends. He gave some of them to understand that he would favor an increase in the license because it was just. This was before he was nominated. On this promise they supported him in the convention and Resolved, That it would be for the best voted for him at the polls. They see now that they have been badly sold, and that the mayor has not the moral courage and strength to break the chain that seems to bind him to the low sicense influence. His action is humilating to the moral sense of the community, and shows how utterly weak some men are when they have an opportunity to defend the right and to prove thomselves manly men.
